To Whom It May Concern:

It is my great pleasure to write this letter of recommendation for Doctor Paweł Majdosz, a director of the STATEMET s.c. He is a capable analyst and a specialist in business forecasting, simulation as well as research and development.

I have had the pleasure of cooperating with Dr Majdosz as one of the lecturers from the AGH University of Science and Technology in Cracow.

High professionalism of Dr Majdosz and reliability of his analysis, his ability to think unconventionally as well as his proficiency in using analytic tools make me enthusiastically recommend him as an efficient and competent partner.

Sincerely,
